

We are a globally successful technology company based in Zurich Oberland. We develop, produce, market and service high-quality sensor systems and solutions for the textile industry. With our measuring and information systems we ensure the highest quality in worldwide textile production. We employ around 150 people and are proud of our employee commitment and very collaborative working atmosphere.

To actively drive our growth in international markets, we are filling the following position as part of a team enlargement in the R&D division at our headquarters in Wetzikon/Zurich:

Senior Full Stack Engineer (m/w/d)

Join us now! Become part of an innovative company, with a wide range of tasks and exciting activities in an international environment.

Your role

You support our efforts in creating our next generation industry 4.0 factory control platform. You will be involved in shaping the new system architecture, as well as in its implementation from the domain up to the UI layer. Your active cooperation with your colleagues from product management, sensor development and customer service will make your role fun and very versatile.

Your main duties include:

- Full stack development of web applications
- Conception of cloud architecture solutions for IoT systems
- Software architecture analysis and design
- Development of CI/CD pipelines and DevOps infrastructure
- Collaboration with the product owner for refining user-stories and for conceiving new functionalities

Your skills

- At least 5 years professional experience in backend development (.NET and C#) and in frontend development (HTML, CSS, Typescript, Angular)
- Solid know-how in cloud-based applications development (Azure)
- The principles of clean architecture and design, clean code and agile software development are very important to you
- A degree in computer science, software engineering, electrical engineering or a similar field (ETH/Uni/FH)

Nice to have:

- Experience in IoT systems development
- Knowledge of data visualization tools (PowerBI)
- German language

What we offer

- Future-oriented and dynamic working environment with very experienced, committed, and team-oriented colleagues
- Exciting job with freedom for independent work with a structure of flat hierarchies and short decision-making paths and opportunities to help shape the company

Loepfe Brothers Ltd.

- Comprehensive induction as well as a variety of tasks and fun at work
- Attractive overall package including 25 days annual vacation plus time worked in advance for bridge days, flexible working hours, above-average employment conditions and other employee benefits
- Modern building and infrastructure offer very pleasant working conditions
- Attractive location (recreational area of Lake Pfäffikon) as well as good access via public transport and car

Are you excited about this role?

We are looking forward to receiving your complete application documents (incl. references, diplomas, salary expectations and earliest possible starting date), exclusively in PDF format by e-mail to jobs@loepfe.com. For further information, please contact Brigitte Holderegger, Head of HR.
