

We are a globally successful technology company based in Zurich Oberland. We develop, produce, sell and service high-quality sensor systems and solutions for the textile industry and adjacent application fields. Through providing our solutions, we help ensuring highest standards of yarn and textile quality worldwide. At our headquarter in Wetzikon, we employ around 120 people, and we are proud of our performance-oriented and collaborative working atmosphere.

We are looking for an experienced and self-motivated professional to join us as soon as possible in the role of a

Software Engineer C#/.NET

Your role

You support our efforts in creating our next generation industry 4.0 factory control platform. You will be involved in shaping the new system architecture, as well as in its implementation from the UI down to the persistence layer. Your active cooperation with your colleagues from product management, sensor development and customer service will make your role fun and very versatile.

Your main duties include:

- Implementation and testing of software
- Concept, design and maintenance of the software architecture
- Setup and maintenance of development and test systems

Your profile

To be successful in your new job, you ideally offer the following skills and qualifications:

- A degree in electrical or computer engineering ETH/Uni/FH
- Very good knowledge and hands-on work experience in C#/.NET
- Experience in web application development
- Ability and willingness to quickly familiarize yourself with new technologies
- Good command of English; German is a plus

What to expect

We offer you a job with plenty of room to share and realize your own ideas. You can expect an exciting job in a dynamic and future-oriented environment with very experienced, committed and team-oriented colleagues. Both internally and externally, we offer excellent opportunities for further training. Our company is located in a modern building that offers very good working conditions. Further, the proximity to the recreational area of Pfäffikersee, good access via public transport and car, flexible working hours, five weeks of vacation plus time worked in advance for bridge days, and additional both monetary and non-monetary benefits.
