

We are a globally successful technology company based in Zurich Oberland. We develop, produce, market and service high-quality sensor systems and solutions for the textile industry. With our measuring and information systems we ensure the highest quality in worldwide textile production. We employ around 150 people and are proud of our performance-oriented and collaborative working atmosphere.

In order to actively drive our growth in international markets, we are filling the following position as part of a team enlargement in the R&D division at our headquarters in Wetzikon/Zurich:

## Full Stack Software Engineer C#/.NET (m/w/d)

Become part of an innovative company, with a wide range of tasks and exciting activities in an international environment.

### Your role

You support our efforts in creating our next generation industry 4.0 factory control platform. You will be involved in shaping the new system architecture, as well as in its implementation from the UI down to the persistence layer. Your active cooperation with your colleagues from product management, sensor development and customer service will make your role fun and very versatile.

Your main duties include:

- Implementation of web applications
- Conception, design and maintenance of software architecture
- Setup and maintenance of development and test systems

### Your skills

To be successful in your new job, you ideally offer the following skills and qualifications:

- A degree in computer or electrical engineering (ETH/Uni/FH)
- Several years hands-on work experience with C#/.NET
- Solid knowledge of frontend development (HTML, CSS, JavaScript, TypeScript)
- The principles of clean design, clean code and agile software development are important to you
- Ability and willingness to quickly familiarize yourself with new technologies
- Good command of English; German is a plus

### What we offer

- Future-oriented and dynamic working environment with very experienced, committed and team-oriented colleagues
- Exciting job with freedom for independent work with a structure of flat hierarchies and short decision-making paths and opportunities to help shape the company
- Comprehensive induction as well as a variety of tasks and fun at work that values
- Attractive overall package including 25 days annual vacation plus time worked in advance for bridge days, flexible working hours, above-average employment conditions and other employee benefits
- Modern building and infrastructure offer very pleasant working conditions
- Attractive location (recreational area of Pfäffikersee) as well as good access via public transport and car
