

Loepfe Pre-ITMA Asia 2023 news (Zurich, October, 2023)

LOEPFE ONE STEP AHEAD **ITMA ASIA 2023**

Loepfe has redefined the landscape in textile manufacturing with cutting-edge sensor solutions. For decades, Loepfe has been a pioneer in the development of sensor technology, helping their customers stay one step ahead with their products.

At ITMA Asia 2023, Loepfe is taking a new approach and inviting visitors to witness firsthand the remarkable advantages Loepfe users experience with its cutting-edge sensor technology. Profitable, efficient, and easy with a high-quality output - that is what Loepfe stands for.

Clever yarn clearing

Loepfe focuses on the needs of producers and turns quality control into profitability through groundbreaking technology and clever software. Loepfe will showcase its market leading YarnMaster® PRISMA and YarnMaster® ZENIT+ technologies, both of which lead in technology, performance, and proven reliability for all applications in winding.

A special highlight at ITMA will be the PRISMA Autoclearing functions, which provide the perfect solution for ease of use in yarn clearing. PRISMA Autoclearing offers the most effortless yarn clearing experience on the market. Visitors can also test the full range of functions of the associated MillMaster® TOP data system, including trend analysis, planning boards for winding machine scheduling, clearer-assistant for cut forecasts, and more.

In the open-end sector, Loepfe will present our world renowned and well proven YarnMaster® EOS. This rotor yarn clearer is known for meeting the spinner's requirement for consistent yarn quality and maximum machine efficiency.

Loepfe's offerings extend beyond the spinning sector, including the WeftMaster® CUT-iT for thermal fabric cutting and the all-rounder sensor WeftMaster® FALCON-i. The FALCON-i is known for zero-defect manufacturing, regardless of color, conductive materials, monofilament, or multifilament yarns.

Market advantages through experience

Loepfe excels in developing top-notch and clever textile quality control systems, thanks to its detailed knowledge of market demands and application challenges. Don't miss the opportunity to visit us at ITMA Asia in Hall 7, Booth C32. Come and have a discussion with us about your requirements, and we'll be glad to assist you.
